#### **Executive Summary**

#### **Purpose of this position statement**

This Five-Year Housing Land Supply ('5YHLS') position statement has been prepared by Lichfields on behalf of Babergh District Council ('the Council'). Babergh and Mid Suffolk District Councils adopted a new 'Joint Local Plan – Part 1' in November 2023. This plan outlines the district's housing need and supply over a plan period from 2018 to 2037.

The purpose of this position statement is to set out the up-to-date 5YHLS position for the Council covering the five-year period from the 1 April 2025 to the 31 March 2030 using the latest available evidence.

#### The five-year requirement

For Babergh, its 5YHLS requirement is 2,184 homes. This is derived from the annualised requirement of 416 dwellings per annum as set out in adopted Policy SP01 with a 5% buffer.

#### The Council's deliverable supply

The Council has undertaken a thorough deliverability review of its housing supply. This has included gathering 'clear evidence' to demonstrate the deliverability of its 'Category B' sites. The Council has also undertaken a review of local lead-in times and build rates to inform its trajectory and has taken account of market signals following engagement with developers.

From this exercise, the Council considers it can demonstrate a 'deliverable' supply of 2,349 homes across the five-year period. This includes a windfall allowance of 50 dpa in years four and five.

#### The Council's five-year housing land supply position

The Council therefore considers it can demonstrate a 5.38 years supply.

Babergh District Council's 5YHLS Position between 1 April 2025 to 31 March 2030

Five-Year Requirement	2,184
Total Supply	2,349
Years Supply	5.38 Years
Surplus/Deficit	+165 homes

Source: Babergh District Council/Lichfields Analysis

#### **Compliance Sheet**

Policy/Guidanc	e	Compliance
National Plannin	ng Policy Framework (December 2024)	
Paragraph 78	All LPAs are required to demonstrate a minimum of five-years' worth of deliverable supply against a housing requirement.	This report sets out the Council's latest five- year housing land supply position. It considers the appropriate requirement including what buffer should apply.
	That housing requirement is based on either the local plan figure (if up to date) plus a buffer of 5% or 20% if the Council records a Housing Delivery Test measurement of below 85%.	
	Note that from July 2026, the 20% buffer applies – regardless of previous housing delivery – if an up-to-date housing requirement is 80% of less than the most up-to-date Local Housing Need figure.	
Annex 2 – 'Deliverable'	Annex 2 sets out the definition of a 'deliverable' site.	See Section 3.0 of this position statement.
		The Council has fully considered the meaning of 'deliverable' taking account of relevant guidance and appeal precedents.
Planning Practic	e Guidance	
ID: 68-007	What constitutes a 'deliverable' housing site in the context of plan-making and decision-taking?	See Section 3.0 of this position statement.
		The Council has fully considered the type of evidence that can form 'clear evidence' detailed in 68-007 in preparing its proforma for 'Category B' sites.

#### **Glossary**

**A Use Class**: This was a former use-class of premises for shops, financial and professional services, restaurants and cafes, drinking establishments or hot food takeaways. Most of the former A Class uses are now Class E.

**B** Use Class: Use of premises for business, general industrial or storage and distribution as described in the Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020.

**Build Rate**: The annual build-out rate of new dwellings on a site.

**C3** Use Class: Use of premises as a 'dwelling house' by a single person or by people living together as a family; or by no more than six people living together as a single household, as described in Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020.

**Condition Discharge Application**: A type of application where a condition in a planning permission or a listed building consent requires details of a specified aspect of the development (which was not fully described in the original application) to be approved by the local planning authority before the development can begin. This is also commonly known as 'discharging' conditions.

**Conditions (or 'planning condition'):** A condition imposed on a grant of planning permission (in accordance with the Town and Country Planning Act 1990) or a condition included in a Local Development Order or Neighbourhood Development Order.

**D** Use Class: This was a former use class for use of premises including non-residential institution or for assembly and leisure. D class uses are now either E class, Sui Generis, and F.2 use.

**Deliverable**: As defined in Annex 2 of the National Planning Policy Framework (2024):

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans)
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years."

**Detailed Planning Permission**: A planning permission that can be implemented (i.e. a full planning permission, a site with both an outline permission and reserved matters approval, or the detailed element of a hybrid permission).

**Development Plan**: A document setting out the local planning authority's policies and proposals for the development and use of land and buildings in the authority's area. This includes adopted Local

Plans and neighbourhood plans, and is defined in section 38 of the Planning and Compulsory Purchase Act 2004.

**Dwellings per Annum (dpa)**: The rate at which a site builds out per year.

**E Use Class**: A new use class covering a wider range of commercial, business and services uses. For example, shops and offices. Described in the Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020.

**First Housing Completion**: The date of the first housing completion on site.

**Five Year Housing Land Supply (5YHLS):** Paragraph 78 of the National Planning Policy Framework (2024) requires Local Planning Authorities to be able to demonstrate five years' worth of housing: known as a Five Year Housing Land Supply.

**Housing Delivery Test (HDT):** As defined in Annex 2 of the National Planning Policy Framework (2024) this is a mechanism which measures net additional dwellings provided in a local authority area against the homes required, using national statistics and local authority data. The Secretary of State should publish the Housing Delivery Test results for each local authority in England. The outcome of which determines whether a 20% buffer is applied to the five-year land supply requirement. The latest HDT is the 2023 measurement.

**Joint Local Plan – Part 1 (November 2023):** Part 1 of the Joint Local Plan was adopted by Babergh and Mid Suffolk District Council's in November 2023. It consists of the Vision, Objectives and Strategic Policies (including setting a housing requirements for each district) as well as Non-Strategic Local Policies (Development Management Policies).

**Joint Local Plan – Part 2:** The Council had intended to adopt a Part 2 Joint Local Plan. However, the Council is now pursuing a Joint Local Plan Review instead that would replace the Part 1 plan in full.

Joint Local Plan Review: The Council is undertaking a full review of its Joint Local Plan Part 1.

**Lead-in Time**: This measures the period up to the first housing completion on site from the submission date of the first planning application made for the scheme.

**Local Housing Need (LHN):** The number of homes identified as being needed through the application of the Standard Method set out in national planning. Note the methodology was updated in December 2024.

**Local Plan Allocation**: Sites identified within a Local Plan for housing, industry or other use that identifies a specific area of land to be developed within the time period of the Plan.

**Local Plan:** Defined in Annex 2 of the National Planning Policy Framework (2024) as a plan for the future development of a local area, drawn up by the local planning authority in consultation with the community. In law this is described as the development plan documents adopted under the Planning and Compulsory Purchase Act 2004. A local plan can consist of either strategic or non-strategic policies, or a combination of the two.

**Local Planning Authority**: The local authority that exercise planning powers (i.e. determines local planning applications and prepares planning policy).

**Mixed Use Class**: Use of premises which provides a mix of complementary uses, such a residential, community and leisure uses, on a site or within a particular area.

**National Planning Policy Framework (NPPF)**: sets out government's planning policies for England and how these are expected to be applied. The most recent NPPF was published in December 2024.

**National Planning Practice Guidance (Guidance):** The National Planning Practice Guidance ('PPG') adds further context to the NPPF.

**Net Completions:** Measures the absolute increase in stock between one year and the next, including other losses and gains (such as conversions, changes of use and demolitions).

**Outline Planning Permission**: An application for planning permission to establish that a development is acceptable in principle, subject to subsequent approval of detailed matters.

**Pre-Commencement Condition**: A condition imposed on a grant of planning permission (in accordance with the Town and Country Planning Act 1990) or a condition included in a Local Development Order or Neighbourhood Development Order which must be discharged prior to commencement of development.

**Reserved Matters Application (RM):** The application for approval of reserved matters should be made after the grant of outline planning permission and should deal with some or all of the outstanding details of the outline application proposal, including appearance, means of access, landscaping, layout and scale.

**Start on Site**: The point at which construction works commence.

**Sui Generis**: Uses of land and buildings which do not fall within a specified use class of Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020.

**Windfall Allowance:** An allowance made in the five-year land supply for windfall sites (as defined above).

**Windfall Sites**: Defined in Annex 2 of the National Planning Policy Framework (2024) as Sites not specifically identified in the development plan.

#### 1.0 Introduction

#### **Purpose**

- This Five-Year Housing Land Supply ('5YHLS') position statement has been prepared on behalf of Babergh District Council ('the Council').
- The purpose of this position statement is to set out an up-to-date 5YHLS position for the Council covering the five-year period from the 'base date' of 1 April 2025 to the 31 March 2030. It has been prepared in accordance with relevant policy and guidance. All data presented is the most up-to-date available at the time of publication. While this position statement only sets out the supply position for Babergh district, the methodology and local market considerations have been prepared jointly with Mid Suffolk District Council.

#### What is a 5YHLS and how is it assessed?

- 5YHLS is a forward-looking measure determining whether a Local Planning Authority ('LPA') has sufficient sites to meet its housing requirement in the next five-years. All LPAs are required to demonstrate a 5YHLS in accordance with Paragraph 78 of the NPPF (2024).
- 1.4 There are two parts to the calculation of 5YHLS:
  - 1 **Housing requirement:** how many homes need to be delivered in the five-year period; and
  - 2 **Housing Supply:** What is the Council's supply of housing from 'deliverable' sites in the five-year period?
- The number of homes expected to be delivered (part 2) is then compared against the number of homes required (part 1) to arrive at a 5YHLS figure: expressed in a number of years' worth of supply.
- 1.6 It should be noted that in accordance the supply of sites for travellers is assessed separately.

#### Why is the Council's 5YHLS position important?

- Whether or not an LPA can demonstrate a 5YHLS informs how both planning applications and planning appeals for housing are determined. Where an LPA cannot demonstrate a sufficient 5YHLS, local policies most important for determining the application are considered 'out-of-date' and the NPPF (2024) at paragraph 11(d) requires that planning decisions for housing should be granted unless:
  - The application of policies in this Framework that protect areas or assets of particular importance provides a strong reason for refusing the development proposed (footnote 7 establishes the polices referred to in the NPPF); or
  - Any adverse impacts of doing so [granting permission] would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole.
- 1.8 Paragraph 11(d) of the NPPF is often known as the 'tilted balance'. The purpose of this national policy is to bring forward additional land for housing that in normal circumstances (i.e. where policies are considered up-to-date) might otherwise not have been granted planning permission.

## Has the Council been able to demonstrate a 5YHLS previously?

1.9 Yes. The Council's previous 5YHLS position – published in December 2024 – covered the five-year period from the 1 April 2024 to the 31 March 2029. This concluded that the Council could demonstrate a 6.75-year supply. It is of note that following the publication of the revised NPPF in December 2024, the Council applied the then required 5% buffer: advancing a position of 6.43 years.

#### Consultation of this document

[TO BE COMPLETED POST CONSULTATION]

#### **Structure**

1.10

- 1.11 The position statement is structured as follows with relevant policy discussed in each section:
  - **Section 2.0** sets out the calculation of the Council's five-year housing requirement;
  - **Section 3.0** provides an overview of what a 'deliverable' site is and how the Council has gone about assessing the deliverability of its sites;
  - **Section 4.0** summarises the Council's housing supply of specific deliverable sites and feedback from developers on the delivery of specific sites;
  - Section 5.0 details the Council's assessment of its 'windfall' allowance; and
  - **Section 6.0** sets out the Council's concluded 5YHLS position.

## The Council's Five-Year Housing Requirement

- 2.1 This section details the calculation of the Council's 5YHLS requirement against relevant national policy and guidance. There are three parts to this calculation, which are set out below:
  - 1 What is the 'basic' five-year requirement?
  - 2 Is there a backlog of supply?
  - 3 What is the appropriate buffer?

#### What is the 'basic' five-year requirement?

- 2.2 With regards to the appropriate housing requirement for calculating 5YHLS, Paragraph 78 of the NPPF (2024) states that it should either be the requirement in adopted strategic policies if adopted in the past five-years or if older but having been reviewed and found not to need updating or against local housing need calculated using the standard method.
- 2.3 Noting that the Council's Joint Local Plan Part 1 ('the Part 1 Plan') was adopted in November 2023, the housing requirement set out in Policy SP01 of Part 1 Plan would be the appropriate basis of the five-year requirement. Therefore, the five-year requirement for Babergh District is 2,080 homes (416 dpa).

#### Is there a backlog of supply? Or an oversupply?

- In calculating a 5YHLS requirement, there must be an assessment determining whether there has been a shortfall of housing delivery against adopted planned requirements from previous years. In accordance with PPG (ID:68-031), this should be calculated from the base-date of the adopted Local Plan (in this case 2018) and added to the basic-five-year requirement.
- 2.5 Table 2.1 below demonstrates that there has been an oversupply of 850 homes in the plan period to 31 March 2025. Therefore, no shortfall is added on to the requirement.

Table 2.1 Assessment determining housing delivery vs housing requirements in Babergh District, 2018-2025

	2018/19	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	Total
Number of Homes Required	416	416	416	416	416	416	416	2,912
Number of Homes Delivered	579	293	403	758	624	604	501	3,762 (+850)

Source: Babergh and Mid Suffolk AMR Reports | Lichfields Analysis

2.6

Given the Council has recorded an oversupply in the plan-period to date, there also needs to be a consideration as to whether oversupply should be netted of the five-year requirement. In 2021, a judgment was issued in the Tewkesbury Case<sup>1</sup> that confirmed policy and guidance was – at that time – silent on the issue of whether oversupply should be netted off a five-year requirement. It was therefore a matter of planning judgement.

<sup>&</sup>lt;sup>1</sup> https://www.bailii.org/ew/cases/EWHC/Admin/2021/2782.html

#### 2.7 Since that judgement:

- The 2023 NPPF was adopted in which Paragraph 77 confirmed the Government wanted oversupply to be considered but that how that would be achieved would be detailed in Planning Practice Guidance ('PPG'). However, that guidance was never published.
- 2 In July 2024, the consultation version of the NPPF was published that removed the oversupply reference in Paragraph 77. The supporting 'Scope of Consultation' document stated that "We are also proposing to remove the wording on past oversupply in paragraph 77, which was introduced to set out that previous oversupply could be set against upcoming supply." (Paragraph 202)
- 3 In December 2024, the NPPF was adopted with the relevant former reference at Paragraph 77 removed. However, the consultation response stated removal of this text "has no bearing on local authorities' ability to account for over-supply this can continue to be taken into account as it is currently."<sup>3</sup>
- 4 Alongside the NPPF, Planning Practice Guidance was also updated. However, the only reference to oversupply to which Government is presumably referring to is that oversupply can be used to offset previous shortfalls (ID: 68-032).
- In the context of the above, the matter of netting off oversupply arguably remains a matter of planning judgement. This is because nowhere in policy or guidance is it specifically said it cannot be used to reduce a 5YHLS requirement. However, in noting this the Government was clear in July 2024 that it did not want oversupply to be used in this way.
- 2.9 Considering the specifics of Babergh district:
  - Its adopted housing requirement was based on the former standard method, but it was expressed as a minimum figure across the plan period (Policy SP01);
  - Policy SP01 does not specifically allow for oversupply to be accounted for;
  - Babergh did not have a sufficient supply to meet its needs across the plan period at the point of the JLP's (2023) adoption; and
  - A Part 2 JLP that would have addressed supply later in the plan-period is no longer being prepared. Instead, the Part 1 JLP (2023) is undergoing a full review and the new standard method for the district that said emerging plan will need to address is considerably higher at 779 dpa.
- Noting the above, the Government's clear statement for oversupply not to be netted off in its July 2024 consultation, and the fact that the guidance still only allows for oversupply to offset past shortfalls (ID: 68-032) the Council has come to the judgement it should not account for oversupply. This will be kept under review should the circumstances relating to policy and guidance change. Notwithstanding, the Council have considered a scenario in which oversupply was accounted for in Section 6.0 of this report as a sensitivity.

 $<sup>^2\</sup> https://www.gov.uk/government/consultations/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system#: ``:text=This%20consultation%20will%20begin%20on,on%20Tuesday%2024%20September%202024$ 

<sup>&</sup>lt;sup>3</sup> <a href="https://www.gov.uk/government/consultations/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system/outcome/government-response-to-the-proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system-consultation">https://www.gov.uk/government/consultations/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system-consultation</a>

#### What is the appropriate buffer?

2.11 Paragraph 78(b) of the NPPF (2024) requires that an additional buffer should be added to the five-year requirement, in cases where delivery falls below 85% of the LPA's housing requirement. In all other cases (i.e. HDT measurements of > 85%), no buffer is applicable.

The latest HDT (2023) was published in December 2024 with the Council recording a measurement of 164%. Therefore, a 5% buffer is required as of publication.

Table 2.2 Babergh District Council HDT 2023 Measurement

	2019/20	2020/21	2021/22	Total		
Number of Homes Required	277	403	416	1,096		
Number of Homes Delivered	393	758	644	1,795		
2022 Measurement	164%					
2022 Consequence	None					

Source: MHCLG (published December 2024)

2.12

#### The Council's five-year housing requirement

Bringing the above together the Council's current 5YHLS requirement is **2,184 homes** in the five-year period from 1 April 2025 to the 31 March 2030 as detailed in Table 2.3 below.

Table 2.3 Assessment of Babergh District Council 5YHLS Requirement

Babergh District Council 5YHLS Requirement	As of Publication
Annual Requirement	416 dpa
Basic Five Year Requirement	2,080
Shortfall	0
Buffer	5%
Total five-year requirement	2,184 homes

Source: Lichfields Analysis (rounded up)

2.14 Therefore, for the Council to be able to demonstrate a 5YHLS it must have a deliverable supply equal to or greater than 2,184 units in the five-year period. The following sections present an assessment of the Council's deliverable supply including a summary of what constitutes a 'deliverable' site.

#### 3.0 Housing Supply: The Council's Approach to Demonstrating Deliverability

To demonstrate a 5YHLS, the Council must identify specific 'deliverable' sites sufficient to provide a minimum of five years' worth of housing: in this case 2,184 homes between the 1 April 2025 and the 31 March 2030. This section of the 5YHLS position statement considers what a 'deliverable' site is in accordance with policy and guidance. It also details how the Council has gone about demonstrating the deliverability of sites in the district.

#### Policy and guidance

#### The definition of 'deliverable'

3.2 A 'deliverable' site is defined in the NPPF (2024) glossary (Annex 2) as:

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has **outline planning permission for major development, has been allocated in a development plan**, has a grant of permission in principle, or is identified on a brownfield register, **it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years**." (Lichfields emphasis)

Unpacking the above definition, to be considered 'deliverable' all sites must be both 'available now' and 'offer a suitable location for development now':

- Being 'available now' means that the site does not have any ownership barriers that will impede development. An example of where a site would not be available now would be where the site is in multiple ownerships in such a way that it would restrict it coming forward now or indeed if the site is currently in another active use (see PPG ID: 3-019 for more detail).
- Being 'suitable now' refers to whether a site should accommodate housing development. For example, a site may not be considered suitable for housing development if the land is designated as part of Site of Special Scientific Interest or in areas at risk of flooding or coastal change. Where a site has a planning permission or an allocation it is generally considered 'suitable' for housing (see PPG ID: 3-018 for more detail).
- In addition, sites must be 'achievable'; which means there is a 'realistic prospect' the 'central test' of deliverability<sup>4</sup> that it will be delivered at a point in time envisaged: in this case, within the five-year period. As explained in PPG (ID: 3-020) this is "essentially a judgement about the economic viability of the site, and the capacity of the development to

3.3

<sup>&</sup>lt;sup>4</sup> As per the 'North Worcestershire Golf Club' planning appeal (ref. 3192918) (IR 14.39 to 14.41)

complete and ... sell the development over a certain period". In the context of 5YHLS the assessment of whether a site is 'achievable' depends on the size and planning status of the development in question.

The definition of deliverable provides for two categories of sites:

#### • Category A sites:

3.5

These are all non-major development sites and major development sites with planning permission that have a detailed planning permission. These types of sites are inherently more certain of delivering within the five-year period given their planning status and/or size (non-major housing development is defined as a development less than 10 units or development on a site less than 0.5ha in size<sup>5</sup>).

The PPG (ID: 68-007) confirms that these types of sites are considered deliverable 'in principle'. It is only in circumstances where the permission expires or there is 'clear evidence' that homes from these sites will <u>not</u> be delivered in the five-years should these sites no longer be considered deliverable.

#### · Category B sites:

Category B sites are those that involve major development without a detailed planning permission: for example, a site with an allocation for housing development only, an extant outline planning permission, or a site with a resolution to grant permission subject to the signing of a S106 agreement. These are sites that are inherently less certain of delivery within the five-year period given a detailed permission must still be approved before homes can be delivered. Consequently, the Council must gather site specific 'clear evidence' for these sites to be considered deliverable.

3.6 The Secretary of State (SoS) has confirmed their interpretation that the definition of 'deliverable' should not be taken as being a 'closed list'. He stated that "examples given in categories (a) and (b) are not exhaustive of all the categories of site which are capable of meeting that definition" (paragraph B of the Consent Order). Therefore, sites not specifically listed in the definition of deliverable can be found to be 'deliverable' where that site can be shown to be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. The draft NPPF does not propose any revisions to how the test of deliverability will be conducted.

#### What is 'clear evidence' in respect of Category B sites?

3.7 There is no complete definition of 'clear evidence'; however, the PPG (ID: 68-007) provides a non-exhaustive list of what type of material can constitutes clear evidence in support of Category B sites. It states:

"Such evidence, to demonstrate deliverability, may include:

current planning status - for example, on larger scale sites with outline or hybrid
permission how much progress has been made towards approving reserved matters,
or whether these link to a planning performance agreement that sets out the timescale
for approval of reserved matters applications and discharge of conditions;

<sup>5</sup> As defined in The Town and Country Planning (Development Management Procedure) (England) Order 2015 and NPPF Annex 2 Glossary.

<sup>&</sup>lt;sup>6</sup> See Consent Order for East Northamptonshire Council v Secretary of State for Communities and Local Government (C0/917/2020) - https://cached.offlinehbpl.hbpl.co.uk/NewsAttachments/RLP/CO009192020.pdf

- firm progress being made towards the submission of an application for example, a written agreement between the local planning authority and the site developer(s) which confirms the developers' delivery intentions and anticipated start and build-out rates;
- firm progress with site assessment work; or
- clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects."
- Given there is no exhaustive definition of 'clear evidence', it is ultimately a matter of planning judgement as to whether clear evidence is provided. Consequently, there has been debate at a number of planning appeals regarding what does and what does not constitute clear evidence. The Council is well aware of this issue following the 'Woolpit' decision (ref. 3194926) (issued in September 2018) in neighbouring Mid Suffolk district. Here, the Inspector determined that the Council's evidence was lacking against the relevant policy and guidance at that time; resulting in neighbouring Mid Suffolk being unable to demonstrate a 5YHLS.
- Since the Woolpit decision, the relevant PPG has been updated and there have been further appeal decisions that have considered the issue of 'clear evidence', some of these presenting alternative perspectives on particular issues. From a review of appeal precedent, the Council considers the below to be the key points of reference for preparing 'clear evidence':
  - Deliverability is determined on the content and value of the evidence: not simply the fact that evidence itself has been provided.
    - As confirmed by the 'Popes Lane' decision<sup>7</sup>, it is the evidential value of the evidence gathered that demonstrates that a development's prospects of delivery are realistic: forming 'clear evidence'. The value of any site-specific evidence is itself dependant on the site's context and the specific circumstances of that site<sup>8</sup>.
  - While there is no minimum criterion for clear evidence, the type and form of 'clear evidence' for Category B sites will vary depending on circumstances of the site (e.g. its size or how quickly it is expected to deliver).

By way of example, the type and form of evidence that could be considered robust to demonstrate a 'realistic prospect' for a hypothetical Category (B) site that has outline permission for 50 units and has a reserved matters application pending consideration with an assumed output in line with local lead-in times/build rates will be markedly different to that required for either a large-scale strategic site for 1,500 units that has an allocation but no extant outline permission, or a site that is assumed to be building out sooner and/or more quickly than has typically been the case for comparable sites in the district or elsewhere.

Evidence can also take account of information gathered after the base date (in this case 1 April 2021) as long as it is used to support sites identified as deliverable as of the base date<sup>10</sup>. However, to ensure consistency in the approach to assessing a five-year supply

<sup>&</sup>lt;sup>7</sup> Appeal ref. 3216104 (IR 23)

<sup>&</sup>lt;sup>8</sup> Confirmed in both the 'Popes Lane' (ref. 3216104 (IR 23) and 'Rectory Farm' (ref. 3234204) (IR 32) decisions

<sup>&</sup>lt;sup>9</sup> Land to the South of Williamsfield Road (ref. 3207411) (IR 27)

<sup>&</sup>lt;sup>10</sup> As the Secretary of State confirmed in the 'Woburn Sands' decision (ref. 3169314) (DL 12) and again in the 'Land at Mitchelswood Farm' decision (ref. 3119171) (IR9.61-9.62)

new sites should not be added into the supply of an existing position; instead, new sites should only be added once a new position with an updated base date is published.

3 The Council should undertake a critical analysis of whatever evidence is gathered from developers.

In the 'Rectory Farm' decision<sup>11</sup> the Inspector noted that the Council did not simply accept the proforma returns from develops on face-value. Where the Council thought the rates overly ambitious, the rates were altered. This demonstration of critical judgement appeared to give additional weight to the Council's findings. Another Inspector in the earlier 'Land to the south of Williamsfield Road' decision<sup>12</sup> echoed these comments.

## The Council's approach to demonstrating the deliverability of its housing supply

- In light of policy and guidance, the below explains the Council's methodology to demonstrating the deliverability of its supply.
- All sites included in this calculation have been identified as being deliverable and will make a contribution to the Council's supply in the relevant five-year period. While the evidence post-dates the base date (which is an inevitable product of how annual monitoring is carried out) the SoS recently confirmed that this is accepted given it supported sites identified as deliverable as of the base date<sup>13</sup>.
- In reviewing the sites, the Council has first removed sites that have a net zero contribution to housing supply and then split up the trajectory between the two Categories of supply: A and B. Following the SoS confirmation that the definition of 'deliverable' should not be interpreted as a 'closed list' the Council considers any site not specifically listed in Category A (which are presumed to be deliverable) falls into Category B (requiring 'clear evidence' to be deliverable)<sup>14</sup>. Therefore, the Council has in this assessment included sites that had a resolution to grant planning permission subject to the signing of a S106 at the base date only where these sites are supported by 'clear evidence' at the base date.

#### **Category A**

3.13

In respect of **Category A** sites, the Council has:

- Divided developments (both major and non-major) into those that have commenced and not commenced.
- 2 Non-major development (less than 10 units<sup>15</sup>) has been divided into commenced and non-commenced categories as per step 1. Unless the Council has received site specific evidence, the Council has presumed these non-major development sites with live permissions are deliverable in accordance with policy and guidance<sup>16</sup>. It is also anticipated that these sites will deliver within years one to three of the trajectory.

<sup>&</sup>lt;sup>11</sup> Appeal ref. 3234204 (IR 32)

<sup>&</sup>lt;sup>12</sup> Appeal ref. 3207411 (IR 27)

<sup>13 &#</sup>x27;Land to the East of Newport Sands' (ref. 3169314) (Para 12)

<sup>&</sup>lt;sup>14</sup> It should also be noted that the Council considers residential conversions via permitted development rights to fall in to Category A as these have a 'detailed' permission from The Town and Country Planning (General Permitted Development) (England) Order 2015. This approach has been endorsed by the Secretary of State in the 'Land to the East of Newport Sands' decision (ref. 3169314) (Para 12)

<sup>&</sup>lt;sup>15</sup> NPPF Annex 2: Glossary page 69

<sup>&</sup>lt;sup>16</sup> Annex 2 (NPPF 2023) and PPG (ID: 68-007)

- 3 To ensure the robustness of the supply the Council has removed sites as follows:
  - a All sites not commenced where planning permission would have expired by 1 April 2025 have been removed. It is assumed these have now expired unless the Council has received evidence to the contrary. This is a conservative approach and means that there may be some supply from this category which could be included in the future if they have in fact commenced. This step removes 34 homes.
  - b Commenced non-major sites with older permissions (i.e. would have expired pre-1 April 2024) have been removed where no completions have yet been recorded (unless there is specific evidence to the contrary that they are deliverable i.e. from a Council site visit that confirms commencement of development). These sites would have had at least a year to record a completion since development commenced, but one has not been forthcoming, which could mean a material start was made, but the project has fallen away. As a conservative estimate, it has been assumed these sites will no longer come forward despite there being an extant permission that could still be built out.

In addition, some major sites with older permissions (akin to the definition above) have been removed where only part of the scheme have been delivered but there has been a continued delay in the remaining dwellings coming forward. This approach is considered more accurate than applying a blanket lapse rate.

This step removes 42 homes.

- 4 For the remaining major development sites that have commenced, the Council presumes these are deliverable, absent evidence to the contrary, and have applied local median build rates (unless there is any robust site-specific delivery evidence).
- For the remaining major development sites with a more recent permission that have not commenced, the Council again presumes these are deliverable, absent evidence to the contrary. Local lead-in times and median build rates have then been applied to these sites (unless there is any robust site-specific delivery evidence).
- 6 For some of the larger Category A sites expected to deliver within and beyond the fiveyear period, the Council has issued a 'Category A proforma' to relevant developers/landowners/agents requesting that they confirm the expected delivery from these sites in the five-year period. A copy of this proforma can be seen at Appendix 2.

#### **Category B**

In respect of **Category B** sites, the Council has undertaken an exercise of gathering 'clear evidence' to demonstrate which of these sites are deliverable. As a starting point, each Category B site is considered not to be deliverable and only where the Council is satisfied there is clear evidence in support of the site is it deemed deliverable. Further detail on how the Council has gathered 'clear evidence' is presented below.

#### The Council's approach to preparing 'clear evidence' for Category B sites

- In light of our analysis of relevant policy and guidance, the Council has sought to gather 'clear evidence' to support the deliverability of its Category B sites.
- 3.16 Where a site with outline permission also had a reserved matters application for housing submitted at the base date but not determined the Council considers this to be sufficiently clear evidence in and of itself to demonstrate the site's deliverability irrespective

3.18

of whether or not a proforma was returned. Therefore, the return of a proforma is not a prerequisite for a Category B site to be considered deliverable.

This is a reasonable approach because it demonstrates there is firm progress towards the submission of an application (as there is one submitted); it shows there has been firm progress in site assessment work (as such work would have been undertaken for the submission); and provides detail of required infrastructure for the scheme, suggests viability etc. Moreover, these are sites that are suitable now and available now. Developers are unlikely to prepare and submit reserved matters applications - investing significant resources in them - if they were not then intent on developing the site out.

For all other Category B sites, the Council prepared a 'Category B site proforma'; a copy of which can be seen at Appendix 2. This proforma was sent to the relevant developers, landowners, and agents of Category B sites. As can be seen, the proforma:

- Confirms to developers/landowners/agents that the Council, as a starting point, approach all Category B sites as not being deliverable;
- Requires details of the progress being made towards the submission of detailed applications, the discharge of conditions and the progress of site assessment work;
- Requires details of whether a house builder/s has been secured to develop the site and if not, what progress has been made to do so. This is to consider the capacity of a particular house builder/s and the likely lead-in times if one has not been secured;
- Requires provision of their anticipated build-out trajectory for the site and importantly to justify why the rates suggested are reasonable. For example, details are requested on how many outlets are likely to be delivering from the site and the levels of affordable housing: both of which are known to impact delivery rates<sup>17</sup>; and
- Requires details of key risks in achieving the identified trajectory. This includes questions regarding whether the site is available now; relevant viability information; relevant infrastructure information; the potential impacts of rising material and labour costs; and ability to partner with a Registered Provider.
- The Council considers that the proforma seeks to ascertain a variety of site-specific evidence that, taken together, will be of a high-evidential value sufficient to demonstrate the deliverability of a full range of Category B sites where they are to be included. The questions not only expand upon the examples of what constitutes 'clear evidence' in the PPG (ID: 68-007) but they are written to be deliberately direct in order to elicit firm and detailed responses.
- 3.20 Crucially as made clear on the proforma the Council has undertaken its own assessment of the proforma returns. This is to consider whether the evidence provided is realistic and robust.
- 3.21 Finally, the following should be noted:
  - 1 There may be sites where there is a body of evidence in support of its deliverability other than a proforma or a reserved matters application submitted before the base date that in the Council's view constitutes clear evidence (for example, planning history, previous proformas, officer knowledge etc.); and
  - 2 There may be Category B sites that local residents are aware of but that are not included in the supply. The reason for this is because the Council must be able to evidence its Category B supply in accordance with the relevant tests. While the Council

<sup>&</sup>lt;sup>17</sup> As detailed in Lichfields research 'Start to Finish' (third edition) published in March 2024 and updated in September 2024

may anticipate a site will come forward in the five-year period, that is not the test of 'deliverability'. Where the Council has not been able to gather sufficient 'clear evidence' in support of Category B sites it cannot count the site's delivery to the 'deliverable' supply. Furthermore, some sites may have been approved after the base date which are also not included.

## How has the Council assessed and applied lead-in times and build rates for both Category A and B sites?

- 3.22 The Council has undertaken an update to its local analysis of developments across both Mid Suffolk and Babergh districts to benchmark lead-in times and build rates for differing site sizes. In undertaking this update, the Council has removed some older data.
- This local analysis has also been supplemented with national evidence detailed in Lichfields' research 'Start to Finish' (third edition) published in March 2024 and updated in September 2024. Over the three editions of the research, the mean build-out rate has decreased marginally, whilst the median rate is also lower for sites under 999 dwellings but broadly static for sites of 1,000 dwellings or more. Overall, there is limited difference in the average build-out rates across all three editions which gives us confidence in the findings. However, it does show a reduction in the presented build-out rates overall.

#### 3.24 These together:

- Provide a realistic benchmark to assess whether proforma returns are accurate taking account of additional detail provided that could justify higher rates; and
- Provide statistical averages that can be applied in the Council's trajectory to sites (by size) where the developer/landowner has not provided expected delivery rates. This is considered a robust approach for projecting future deliver rates and lead-in times based on what has recently occurred locally.
- This analysis is fully detailed in Appendices 2 and 3; however, Table 3.1 and Table 3.2 below provide a summary of the findings. In the table:
  - Lead-in Time (1) = the time from validation of first application (including outline applications) to first completion; and
  - Lead-in Time (2) = the time from approval of first detailed permission (this could be a full, hybrid or reserved matters application) to first completion.

Table 3.1 Local Lead-in Time Analysis

Site Size	Lead-in Time (1)		Lead-in	Sample Size	
	Mean	Median	Mean	Median	
10-99 dwellings	4.2	4.1	1.6	1.3	62
100-499 dwellings	4.3	4.8	1.1	1.2	30

Source: Babergh District Council/Mid Suffolk District Council/Lichfields Analysis

Table 3.2 Local Build Rate Analysis

Site Size	Build Rate Averages	Build Rate Medians	Sample Size
10-49 dwellings	25	22	18
50-99 dwellings	29	26	7
100-499 dwellings	51	46	10

Source: Babergh District Council/Mid Suffolk District Council/Lichfields Analysis

3.25

- The median lead-in times and build-rates have been applied in the accompanying trajectory to sites where the Council has no site-specific information or where the Council considers proposed rates/lead-in times to be overly optimistic. The median is used as the benchmark given this is the mid-point scheme: accounting for a distribution of data that is not equal around the average.
- 3.27 The Council monitors build rates and lead-in times together with Mid Suffolk. The areas are broadly similar with many developers operating in both districts. While there are currently different policy structures, the Councils adopted a Joint Local Plan in November 2023 and currently share a development management team. Importantly, measuring across both districts provides a larger dataset of local lead-in times and build rates which helps smooth out any outliers in the data. Therefore, the data provides a more realistic benchmark of how long it takes developments to come forward across two broadly comparable districts. The Council is therefore satisfied that reviewing build rates across both districts is robust.
- 3.28 It should be noted that our analysis has been updated from the four previous 5YHLS reports produced in 2020, 2021, 2022, and 2024. Compared with the 2024 report, lead-in times have increased. Mean and median build out rates have also broadly slowed.

#### Conflicts in stated completions/net supply remaining

- The Council has calculated the number of homes remaining from sites based on completions recorded from (1) building control records or (2) site visits (usually in early April). As in past 5YHLS assessments, proforma returns from developers this year (both Category A and Category B sites) have conflicting records as to the number of homes remaining to the Council's records. Developer returns sometimes suggest more completions have already occurred with fewer to be built out in the five-year period, or they suggest fewer completions have occurred.
- 3.30 While there is a conflict in the recorded data, the Council has for this 5YHLS position decided to use its completions data to inform the number of net homes remaining to be built out on sites (noting there are a number of conflicts). This is because:
  - 1 The Council only records a completion as being a completion once there is a building control record or is it is confirmed on site via a site visit. Developers may take a different view as to when a home is 'completed'; and
  - 2 There is no double counting as the Council did not record any completions in the previous monitoring year that the developer did. Therefore, if the Council did not record those homes as homes to be built, those homes would be lost in the completions/supply records.

#### **Conclusions**

Overall, the Council has undertaken a thorough review of policy, guidance, and appeal precedent to determine the 'deliverability' of its sites. From this, the Council considers it has a robust but conservative methodology taking account of a full range of factors. The next section details the findings of the Council from a full deliverability review of its supply trajectory.

## The Council's Five-Year Housing Supply: Specific Sites

The below summarises the findings of the Council's full deliverability review of housing supply in accordance with the methodology set out in Section 3.0. A separate detailed table of housing supply accompanies this position statement detailing year-by-year completions. This includes key site information and a summary detailing why the Council considers each individual site to be deliverable. In addition, the returns from both the Category A and B proformas are included at Appendix 5.

#### Proforma feedback

4.2 The Council issued Category A proformas and Category B proformas to relevant developers/landowners/agents. One proforma return can be viewed at Appendix 4.

#### **Category A Sites**

The below summarises the Category A supply that the Council has identified split into major/non-major and commenced/not-commenced sites. As per the review of policy and guidance in Section 3.0 of this position statement, these are sites that have a detailed planning permission and are presumed to be deliverable. Site-specific delivery rates and site commentary is included in the accompanying Babergh 5YHLS Trajectory (2025).

#### **Major (Commenced)**

In total, the Council has identified 31 major development permissions that have already commenced development and are considered to be deliverable. Across the five-year period these are expected to deliver 1,652 units. Note that this includes the delivery of a care home (use class C2) element on one site to which we have applied a ratio of 1.9 to as per the Housing Delivery Test 2023 Measurement Technical Note.

Table / 1	Major	Davalar	mont 9	Sitac F	vnoctod:	Fivo-	Voor	Dalivary	(Commence	۱٦,

Total	31	633	333	271	242	171	1,652		

Source: Babergh District Council/Lichfields

#### Non-Major (Commenced)

In total, the Council has identified 116 non-major development permissions that have already commenced development and are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 230 units. Given these are non-major development sites relating to development of nine or less units and they have already begun, it has been assumed that the majority will be built out in 2025/26.

Table 4.2 Non-Major Development Sites Expected Five-Year Delivery (Commenced)

РР Туре	No. Sites	Delivery in Five-Year Period					
		2025/26	2026/27	2027/28	2028/29	2029/30	Total

Total	116	230	0	0	0	0	230

Source: Babergh District Council/Lichfield

#### **Major (Not-Commenced)**

In total, the Council has identified two major development permissions that have not yet commenced development but are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 46 units.

Table 4.3 Major Development Sites Expected Five-Year Delivery (Not-Commenced)

Total	0	0	46	0	0	0	46

Source: Babergh District Council/Lichfield

4.5

#### Non-Major (Not-Commenced)

In total, the Council has identified 126 non-major development sites that have not yet commenced development but are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 246 units.

For non-major development, the Council has assumed that non-implemented sites with full planning permission, reserved matters, or permitted development right prior approvals will deliver in Year two (2026/27). Non-major permissions with outline permission are assumed to deliver in Year three (2027/28) to account for the need to gain reserved matters approval before commencement (broadly aligning with our lead-in time analysis for large sites).

Table 4.4 Non-Major Development Sites Expected Five-Year Delivery (Not-Commenced)

РР Туре	No. Sites	Delivery in Five-Year Period					
		2025/26	2026/27	2027/28	2028/29	2029/30	Total

Total	126	0	233	13	0	0	246

Source: Babergh District Council/Lichfields

#### **Category B Sites**

- 4.6 From the Council's review, there are two deliverable Category B sites based on the evidence available. The reasoning for each site is set out in the accompanying Babergh table of housing supply. These are expected to deliver 75 homes.
- 4.7 Finally, it should be noted that the Council reviewed a further two Category B sites (totalling 119 homes). While proformas were sent to relevant developers/landowners/agents, none were returned. The Council has therefore not considered these as being deliverable for the purposes of this assessment. These sites are shown in the accompanying trajectory.

Table 4.5 Category B Sites Expected Five-Year Delivery

РР Туре	No. Sites	Delivery in Five-Year Period					
		2025/26 2026/27 2027/28 2028/29 2029/30 Total

S106	0	0	0	0	0	0	0
Total	2	0	0	0	0	75	75

Source: Babergh District Council/Lichfields

#### The Council's supply from specific sites

Taking the above together, the Council has a total deliverable supply of 2,249 units from 277 sites/permissions. This comprises both Category A and B development from major and non-major sites and 83.6% of the housing development expected to be delivered in the five-year period are on sites that have already commenced as of the base date.

Table 4.6 Babergh District Council Deliverable Supply

РР Туре	No. Sites	Delivery in Five-Year Period					
		2025/26	2026/27	2027/28	2028/29	2029/30	Total

## The Council's Five-Year Housing Supply: Windfall Allowance

5.1 This section considers the appropriate windfall allowance for Babergh district in accordance with policy and guidance.

#### Policy and guidance

The NPPF (2024) permits Councils to include an allowance for windfall (i.e. unplanned for) development. Paragraph 75 states:

"Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends ..."

5.3 The PPG contains little specific guidance for calculating a windfall allowance. In respect of 'housing and economic land availability assessments', it simply states that an allowance may be justified subject to 'compelling' evidence (ID: 3-023).

#### Windfalls: methodology and past rates

- 5.4 The methodology for calculating the district's windfall allowance remains in the main consistent with that in the previous 5YHLS reports. This methodology was prepared by the Council and is considered robust for its local context. Previous windfall development over the past eight years has been analysed and in doing so the following have been removed from the assessment:
  - Sites in residential gardens (given local planning policy has aimed at restricting such development); and
  - 2 Major development (i.e. 10 or more dwellings in size) as these sites would be expected to be allocated in the emerging plan and in the future would not be termed 'windfall' supply.
- 5.5 Further to the above:
  - The Council does not hold complete records to allow identification of all windfall sites for fewer than ten dwellings granted on appeal; and
  - The Council does not have windfall data occurring in the 2022/23 monitoring year. Therefore, we are unable to add these into our assessment of the allowance.
- Reviewing small site windfall completions data from 2014/15 stripping out garden land and major development the Council has on average delivered 104 dpa (not including data from 2022/23).

Table 5.1 Small Site Windfall Delivery in Babergh

Monitoring Year	Net Completions	Small Site Windfall Completions (Not including Garden Land or major development)	% of Net Completions
2014/15	172	57	33%
2015/16	157	63	40%
2016/17	226	63	28%
2017/18	331	49	15%
2018/19	579	146	25%
2019/20	266	61	23%
2020/21	363	129	36%
2021/22	758	210	28%
2022/23	~	(no windfall data)	~
2023/24	604	142	24%
2024/25	501	124	25%
Totals*	3,957	1,044	3.00/
Average*	396	104	26%

Source: Babergh District Council/Lichfields Analysis \*Totals and averages excluding 2022/23 data.

#### Sources of windfall

- 5.7 Fundamental changes have been made to the Use Classes Order that came into effect on the 1st September 2020. The primary change was the combination of various A, D, and some B class development into a new 'E' Class allowing greater flexibility to move between uses. Furthermore, additional permitted development rights are being implemented including the ability to demolish vacant office buildings and rebuild them with residential uses and rights to extend purpose-build residential blocks to accommodate new units. At this stage, it is still unclear how these changes will impact future levels of windfalls given there is a lack of previous trend data or a local capacity study to make a robust future projection. To ensure consistency with previous analysis, the Council has monitored windfalls based on the former Use Classes.
- Reviewing recent completions, there are a variety of sources of windfall development in the district. Figure 5.1 and Table 5.2 show a breakdown of the sources of windfall development (excluding garden development). As shown in Table 5.2, in nine of the previous years, the largest proportions of windfall development have come from agricultural buildings/land, sites which have previously been in C-Use Class, and greenfield sites.

Figure 5.1 Proportion of Windfall Development

Source: Babergh District Council / Lichfields Analysis \*note this graph refers to the previous Use Classes.

Table 5.2 Breakdown of Windfall Development in Babergh District Since 2014/15 (with no figures included in 2022/23)

Source of Windfall	Total Delivery	Proportion of Total Windfall development
A Use Class	61	6%
Agricultural Buildings/Land	331	33%
B Use Class	104	10%
C Use Class	237	24%
D Use Class	32	3%
Greenfields	139	14%
Mixed Use Class	139	4%
Sui Generis	56	6%

Source: Babergh District Council/Lichfields Analysis \*note this table refers to the previous use classes.

5.9

Given the rural nature of the district and changes in modern agriculture it is reasonable to assume that windfall completions on previous agricultural buildings and greenfield sites will continue to provide a consistent source of windfall supply. It is also expected that windfall completions on B Use Class buildings will continue to provide a modest contribution due to permitted development rights, as can development from former C Use Class buildings.

5.10 Based on historical trends, the following sources of windfall development have been deemed to be inconsistent on an annual basis or very minor in nature. As such they have been removed from the windfall calculation as they are not a reliable source of supply:

- A Use Classes (old use class definition);
- D Use Classes (old use class definition);
- Mixed Use Classes; and
- · Sui Generis.

5.11

When removing these sources, Figure 5.2 details the windfall completions by year from what the Council considers 'reliable' sources of windfall development. On average, the Council has delivered 81 dpa from these sources of windfall; albeit with peaks of development in 2018/19 and 2021/22.

Figure 5.2 'Reliable' Windfall Development

Source: Babergh District Council / Lichfields Analysis

Consistent with the previous five 5YHLS position statements (September 2019, October 2020, January 2022, December 2022, and December 2024) the windfall allowance has only been included in years four and five to reflect an assumed three-year implementation period of planning permissions from windfall developments. This is to ensure no double counting occurs with current, live permissions. Based on the analysis above, it is concluded that there is compelling evidence that a conservative windfall allowance of at least 50 dpa in years four and five is justified and reasonable.

While a higher figure than past trends may be justified – for example, accounting for the likely increase from E-Class to C3 as a result of Class MA permitted development – these impacts are as yet unknown in this area and the approach taken is considered more prudent and factors in some of the uncertainty surrounding future windfalls in light of changes to the Use Classes Order and the greater flexibility to move between uses.

#### Conclusion

Based on the above assessment the Council is satisfied there is compelling evidence that a windfall allowance of at least **50 dpa** for years four and five.

5.12

## The Council's Five-Year Housing Land Supply Position

6.1 The below summarises Babergh District Council's concluded 5YHLS position for the fiveyear period from the 1 April 2025 to the 31 March 2030.

#### Summary

#### The Council's five-year requirement

As detailed in Section 2.0, the five-year requirement is 2,184 dwellings across the five-year period. This is on the basis of the Local Plan annual requirement of 416 dpa and a 5% buffer.

Table 6.1	Rahergh	District	Council	<b>SYHIS</b>	Requirement
Table 0.1	Dabcigii	טוטנווכנ	Council	JIIILJ	negun ement

Babergh District Council 5YHLS Requirement				
Annual Requirement	416 dpa			
Basic Five-Year Requirement	2,080			
Shortfall	0			
Buffer	5%			
Total five-year requirement	2,184 homes			

Source: Lichfields Analysis

#### The Council's deliverable supply

- 6.3 The Council has undertaken a thorough review of its housing supply to identify specific 'deliverable' sites. These have been identified through the Council's annual monitoring process and are supported by 'clear evidence' where necessary.
- As explained in this position statement and evidence in its appendices, the Council's process of identifying and evidencing the 'deliverability' of its sites has taken account of relevant policy, guidance and planning precedent. It has also been informed by a review of local and national lead-in times and build-out rates. Overall, an extremely cautious approach has been taken in respect of reviewing the deliverability of sites as summarised below:
  - 1 As per the methodology at paragraph 3.13 of this position statement, non-major sites which have commenced development, but where there have been no recorded completions in over a year have been removed from the assessment; and
  - 2 Suggested build out rates and lead in times from proforma returns were not uncritically applied. Instead, a review of the return was undertaken to consider whether the evidence justified higher than median rates.
- 6.5 From this exercise, the Council considers it can demonstrate a supply of 2,249 homes from specific sites/permissions. This position statement also provides compelling evidence that a windfall allowance of at least 50 units in years four and five is also justified. In total, the Council's five-year supply is therefore 2,349 units as detailed in Table 6.2.

Table 6.2 Babergh District Council Deliverable Supply

Source of Supply	Supply (homes)
Category A (Commenced)	1,882
Category A (Not Commenced)	292
Category B	75
Windfall Allowance	100
Total Supply	2,349

Source: Babergh District Council/Lichfields Analysis

#### The Council's concluded 5YHLS position

On the basis of the above, the Council can demonstrate 6.75 years supply between the 1 April 2025 to the 31 March 2030 as detailed in Table 6.3.

Table 6.3 Babergh District Council's 5YHLS Position between 1 April 2025 to 31 March 2030

Babergh 5YHLS				
Five-Year Requirement	2,184			
Total Supply	2,349			
Years Supply	5.38 Years			
Surplus/Deficit	+165 homes			

Source: Babergh District Council/Lichfields Analysis

Figure 6.1 Babergh Five-Year Supply Projection

Source: Babergh District Council/Lichfields

- 6.7 The position is skewed towards the first years in part because:
  - We- assume small sites will complete primarily in year one and two. The delivery might be spread more evenly across years one to three.

- The windfall delivery in later years is also likely to be greater based on past delivery rates but the Council has taken a conservative approach.
- Supply from sites that may deliver later in the period may not yet be considered
  deliverable (i.e. outline permissions without clear evidence) and there are additional
  sites that may come through the local plan and development management processes to
  meet requirements in these later years (which again, we have not considered deliverable
  in this position).

#### Scenario testing

6.8 While not required by national policy, the Council has considered a number of scenarios to stress-test the concluded 5YHLS position.

#### Scenario 1 – Small sites lapse

- There is no explicit requirement in either policy or guidance to apply a lapse rate to small sites, however in some cases LPAs have considered it appropriate. In the case of Babergh the Council has not applied such a lapse rate to its 5YHLS in previous assessments because a detailed analysis of the supply has removed all sites which have any potential for non-delivery.
- Notwithstanding, the below sets out three scenarios whereby a lapse rate of either 5%, 10%, or 20% has been applied to all non-major small sites that have not commenced (which currently totals 476 units) plus the small sites already removed as per Stage 3 (see Paragraph 3.13 of this position statement) of calculating the Council's total Category A supply (which totals 174 units). These sites are added back in, otherwise the Council would be applying a double lapse rate as part of this exercise.
- 6.11 The below scenario is not advanced by the Council as the basis for its 5YHLS assessment, but the exercise serves as a demonstration of the Council's robust supply approach.

Table 6.4 Babergh District Council's 5YHLS: Stress Test Scenario 2

Small Site Lapse Rate	5% SS Lapse	10% SS Lapse	20% SS Lapse
Five-Year Requirement	2,184	2,184	2,184
Total Supply (Applying SS Lapse)	2,502	2,481	2,439
Years Supply	5.73 Years	5.68 Years	5.58 Years
Surplus/Deficit	+318 homes	+297 homes	+255 homes

Source: Babergh District Council / Lichfields Analysis

#### Scenario 2 – Oversupply

As per the analysis in Section 2 of this report, the Council does not account for oversupply. Notwithstanding, Table 6.5 below shows that were the Council to do so its supply would increase to 9.09 years applying a 5% buffer. To be clear, the Council does not advance this position but demonstrates the number of homes already delivered within the plan-period to date.

Table 6.5 Babergh District Council's 5YHLS Position Accounting for Oversupply

Babergh 5YHLS	5% buffer
Five-Year Requirement (accounting for	1,292
oversupply of 850 homes)	
Total Supply	2,349
Years Supply	9.09 Years
Surplus/Deficit	+1,057 homes

### **Appendix 1 Category A and B Proformas**

### Mid-Suffolk & Babergh District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY A SITES

Site Address:						
[INSERT]						
Developer/Site Promoter:						
[INSERT]						

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Mid-Suffolk and Babergh District Councils to prepare the Council's respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, to gather as much information as possible, we are seeking the below information to confirm delivery rates and other relevant information.

- 1. Site Planning Status (completed by the Council):
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: [INSERT]
  - Reserved Matters reference: [INSERT]
  - Full Planning Permission reference: [INSERT]
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> 1<sup>st</sup> April to 31<sup>st</sup> March of each year):

25/26	26/27	27/28	28/29	29/30	5-year period delivery
XX	XX	XX	XX	XX	XX

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
XX	XX							

(please also provide the expected delivery beyond 1<sup>st</sup> April 2030 if known. This information may also inform the Council's emerging local plan trajectory)

3. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from the 1st April 2025 to the 31st March

2030? For example, the increasing cost of materials and labour, or inflationary pressures having an potential impact on market demand, or difficulties securing partnership from a registered provider?

#### [<mark>INSERT</mark>]

4. <u>In support of the above trajectory, please provide a brief justification for the assumed build rates with refence to factors such as the number of outlets, affordable housing, and market trends:</u>

### Mid-Suffolk & Babergh District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY B SITES

Site Address:
[INSERT]
Developer/Site Promoter:
[INSERT]

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Mid-Suffolk and Babergh District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2024) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, the Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. Absent this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

- 1. Site Planning Status (completed by the Council):
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: [INSERT]
  - Reserved Matters reference: [INSERT]
  - Full Planning Permission reference: [INSERT]
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]
- 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

#### [<mark>INSERT</mark>]

(please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic)

3. What progress is being made on site assessment work and the discharge of conditions required for an application submission and / or before development may lawfully commence?

#### [<mark>INSERT</mark>]

(please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged)

4. Please provide details of any house builder(s) secured to develop the site:

#### [<mark>INSERT</mark>]

a. What is their track record of building and selling in the local market?

[INSERT]

b. <u>If no house builder is yet in place, what progress has been made and when</u> will one be contracted to build out the site?

[INSERT]

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> 1<sup>st</sup> April to 31<sup>st</sup> March of each year):

25/26	26/27	27/28	28/29	29/30	5-year period delivery
XX	XX	XX	XX	XX	XX

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
XX	XX							

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2030 if known as well. This information may also inform a future local plan trajectory.)

In support of the above trajectory, please also provide the following information:

a. When will construction on site likely begin (i.e. opening up works, not when the first house is delivered)?

[INSERT]

b. When is the first house anticipated to be completed?

[INSERT]

c. <u>If relevant, is there a phasing plan for the site?</u>

[INSERT]

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

[<mark>INSERT</mark>]

e. What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected and/or is securing funding from a Registered Provider likely to amend the rate of delivery?

[INSERT]

f. <u>Please summarise why there is a realistic prospect of achieving the rate of</u> build out assumed for the site.

[INSERT]

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

[INSERT]

- 6. What are the key risks to achieving the trajectory identified above and how are you mitigating against these risks? In particular:
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you anticipate one to be agreed?</u>

[INSERT]

b. <u>Is the development viable as approved / allocated, or do you anticipate</u> amendments will need to be made?

[INSERT]

c. Is the site available for development now?

[INSERT]

d. Are there site ownership, access or other legal constraints that could affect the commencement of development? (i.e. ransom strips, land assembly issues etc).

rı.	N I	0	_		7
[H	٧	3		К	1

e.	What (if a	ny) in	<u>frastructure</u>	provision	<u>ı is nece</u>	essary	to supp	ort / e	<u>enable</u>	<u>the</u>
	developm	ent to	commence	and is th	nere fun	ding in	place 1	to deli	ver it?	

#### [<mark>INSERT</mark>]

(if the development is reliant on or has secured any grant funding for relevant supporting infrastructure please provide details of this here)

f. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from the 1<sup>st</sup> April 2025 to the 31<sup>st</sup> March 2030? For example, the increasing cost of materials and labour, or inflationary pressures having a potential impact on market demand, or difficulties securing partnership from a registered provider?

[<mark>INSERT</mark>]

g. Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?

# Appendix 2 Lead in Time Analysis (Babergh & Mid Suffolk)

#### **Local Lead-in Time Analysis – 2025**

The following provides a review of past lead-in times in both Babergh and Mid Suffolk districts. For this exercise, the developments have been split by the size of the sites (above and below 100 units) and two lead-in times have been measured:

- **Lead-in Time (1):** From the date of validation of the first permission (i.e. outline or full planning permission) to the first completion; and
- **Lead-in Time (2):** From the date of approval of the detailed permission (i.e. reserved matters, hybrid or full planning permission) to the first completion.

This analysis has been updated compared to the previous report to reflect an updated set of permissions and update how the previous lead-in time analysis was calculated.

#### Local analysis: sites 100-499 units

Local Lead-in Time Analysis: Sites 100-499 units

#### National Lead-in Time Evidence: Start to Finish (3rd Edition)

'Start to Finish' (3<sup>rd</sup> Edition) is a report published by Lichfields in March 2024 and updated in September 2024. It reviews the factors affecting the build-out rates of large sites including the lead-in times. The below graph (extracted from Start to Finish) details the average lead-in times for both the period from validation of the first application to first completion and from approval of the first detailed permission to first completion.

Start to Finish (3rd Edition) -Average (median) timeframes from validation of first application to completion of the first dwelling

Source: Lichfields 2024

Comparing the local data with the national data in 'Start to Finish,' it would appear that larger sites in the districts have lead-in times that are different; however, for smaller sites it is the same. In respect of sites under 100 dwellings (or in the case of Start to Finish 50-99) the median lead-in times are identical. For sites 100 to 499 in size, the local evidence suggests a shorter lead in time of 4.2 years compared to 6.0 years in 'Start to Finish'.

In lieu of local data, 'Start to Finish' is considered to provide robust lead-in time assumptions for any larger sites. This is considered robust on account of how well 'Start to Finish' aligns with data for smaller sites and given the research reviews 179 large sites (above 500 units) in size; while locally there is not sufficient data on such large sites to come to a robust conclusion.

# Appendix 3 Build-Out Rate Analysis (Babergh & Mid Suffolk)

#### **Local Build Rate Analysis – 2025**

The previous analysis calculated build rates from the point of commencement to the date of the last known completion.

The data has been updated to measure the build rates from the point of first completion onwards. Consistent with our previous analysis we have divided the developments by the size of the sites into three categories (10-49 units, 50-99 units and 100-499 units) and only reviewed sites that are at least 50% complete for those of less than 100 units. This is to average out earlier years following commencement where delivery is likely to be less. The median build rates are also shown which accounts for extremes in the data set.

It should be noted that new sites have been used to calculate the local build rates compared to previous reports.

#### National Lead-in Time Evidence: Start to Finish (3rd Edition)

'Start to Finish' ( $3^{rd}$  Edition) is a report published by Lichfields in March 2024 and updated in September 2024. It reviews the factors affecting the build-out rates of large sites including the lead-in

times. The graph below details the average build rates for varying site sizes. The graph shows the variation across the Start to Finish data; including the minimum, lower quartile, median, upper quartile and maximum build rates by site size.

### **Appendix 4 Proforma Returns**

### Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY A SITES

Site Address:
Brooklands Road, Brantham
Developer/Site Promoter:
Taylor Wimpey East Anglia

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance, major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, to gather as much information as possible, we are seeking the below information to confirm delivery rates and other relevant information.

- 1. <u>Site Planning Status (completed by the Council):</u>
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: [INSERT]
  - Reserved Matters reference: DC/19/00881
  - Full Planning Permission reference: [INSERT]
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from 1st April to 31st March of each year):</u>

25/26	26/27	27/28	28/29	29/30	5-year period delivery
23	35	36	35	34	163

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
_	_	-	_	-	-	-	-	-

(Please also provide the expected delivery beyond 1<sup>st</sup> April 2030 if known. This information may also inform the Councils' emerging local plan trajectory).

3. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030? For example, the increasing cost of materials and labour, or inflationary pressures having a potential impact on market demand, or difficulties securing partnership from a registered provider?

The housing delivery numbers provided in the Table in Question 2 are based on our 5yr forecast, taking into account what we know currently about the above factors and the likely impact they will have on market demand.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed build rates with refence to factors such as the number of outlets, affordable housing, and market trends:</u>

The figures provided in Table 2 are based on our standard build out rate for this site based on a single outlet.

Unless otherwise stated we will presume your site is indeed deliverable.

However, to gather as much information as possible, we are seeking the below information to confirm delivery rates and other relevant information.

- 1. <u>Site Planning Status (completed by the Council):</u>
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: [INSERT]
  - Reserved Matters reference: DC/20/01058
  - Full Planning Permission reference: [INSERT]
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]

### 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from 1st April to 31st March of each year):</u>

25/26	26/27	27/28	28/29	29/30	5-year period delivery
44	42	45	39	0	170

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
-	-	1	1	-	1	1	1	-

(Please also provide the expected delivery beyond 1<sup>st</sup> April 2030 if known. This information may also inform the Councils' emerging local plan trajectory).

3. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030? For example, the increasing cost of materials and labour, or inflationary pressures having a potential impact on market demand, or difficulties securing partnership from a registered provider?

The housing delivery numbers provided in the Table in Question 2 are based on our 5yr forecast, taking into account what we know currently about the above factors and the likely impact they will have on market demand.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed build rates with refence to factors such as the number of outlets, affordable housing, and market trends:</u>

The figures provided in Table 2 are based on our standard build out rate of approximately 50 dwellings per annum from a single outlet.

### Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY B SITES

Site Address:	
Wolsey Grange 2	
Developer/Site Promoter:	
Taylor Wimpey East Anglia	

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2024) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, each Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. In the absence of this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

- 1. Site Planning Status (completed by the Council):
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: DC/21/02671
  - Reserved Matters reference: [INSERT]
  - Full Planning Permission reference: [INSERT]
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]
- 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

We are currently in the process of preparing the first RM application for the site wide infrastructure for this development, which will be submitted in the autumn of this year. Submission of the RM application for the first residential Phase of this development will follow in the first half of next year.

(Please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic).

3. What progress is being made on site assessment work and the discharge of conditions required for an application submission and / or before development may lawfully commence?

As mentioned in the answer to Q2 we are currently pulling together all the site assessment information.

This site requires the design and delivery of a very significant amount of S278 highway improvements prior to any commencement on site. The completion of these works before we can start on site creates a significant delay in the delivery of any housing on this site and is not ideal. We have commenced this work and will ensure that it is completed as soon as possible. The S278 designs are due to be submitted for approval imminently.

(Please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged).

4. Please provide details of any house builder(s) secured to develop the site:

Taylor Wimpey East Anglia are owners of the site and will be developing it.

a. What is their track record of building and selling in the local market?

Very good – we always commence building on site as soon as planning permission is granted and the pre-commencement conditions are discharged. This is evidenced by all the previous developments we have delivered in Babergh Mid Suffolk.

b. <u>If no house builder is yet in place, what progress has been made and when</u> will one be contracted to build out the site?

N/A

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from 1st April to 31st March of each year):</u>

25/26	26/27	27/28	28/29	29/30	5-year period delivery
0	0	0	0	37	37

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
_	_	_	_	_	_	_	_	_

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2030 if known as well. This information may also inform a future local plan trajectory.)

In support of the above trajectory, please also provide the following information:

a. When will construction on site likely begin (i.e. opening up works, not when the first house is delivered)?

Not until all the S278 highway improvement works are completed which is correctly envisaged to be the end of 2027/beginning of 2028..

b. When is the first house anticipated to be completed?

2029

c. If relevant, is there a phasing plan for the site?

Yes – this detailed information is not yet available.

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

Definitely one, possibly two.

e. What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected and/or is securing funding from a Registered Provider likely to amend the rate of delivery?

35%.

Thes units will be delivered as an integral part of the development.

A Registered Provider has not yet been secured for this development.

The identification and securing of funding from a Registered Provider is not considered to amend the rate of delivery on this development.

f. Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.

Taylor Wimpey is an efficient deliverer of housing and has an excellent track record of delivering roughly 50 houses per year from a development.

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

- 6. What are the key risks to achieving the trajectory identified above and how are you mitigating against these risks? In particular:
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you</u> anticipate one to be agreed?

Yes

b. <u>Is the development viable as approved / allocated, or do you anticipate</u> amendments will need to be made?

Yes, although there is a huge upfront cost with the delivery of all the S278 works ahead of being able to start on site.

c. <u>Is the site available for development now?</u>

Yes

d. Are there site ownership, access or other legal constraints that could affect the commencement of development? (i.e. ransom strips, land assembly issues etc).

No

e. What (if any) infrastructure provision is necessary to support / enable the development to commence and is there funding in place to deliver it?

See answer to previous questions

(If the development is reliant on or has secured any grant funding for relevant supporting infrastructure, please provide details of this here).

f. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030? For example, the increasing cost of materials and labour, or inflationary pressures having a potential impact on market demand, or difficulties securing partnership from a registered provider?

The housing delivery numbers provided in the Table in Question 2 are based on our 5yr forecast, taking into account what we know currently about the above factors and the likely impact they will have on market demand.

g. Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?

N/A

7. <u>"Do you anticipate any delay in utility connections on your site? If so, would this impact on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030?"</u>

N/A

### Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY A SITES

#### **Site Address:**

Former HMS Ganges development, Shotley Gate

#### **Developer/Site Promoter:**

Haylink Limited (JV between Galliard Homes and Wavensmere Homes)

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance, major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, to gather as much information as possible, we are seeking the below information to confirm delivery rates and other relevant information.

- 1. Site Planning Status (completed by the Council):
  - Allocation reference: [INSERT]
  - Outline Planning Permission reference: [INSERT]
  - Reserved Matters reference: [INSERT]
  - Full Planning Permission reference: DC/23/04109
  - Brownfield Register reference: [INSERT]
  - Permission in Principle reference: [INSERT]
  - No Planning Status/Other (please explain): [INSERT]
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> 1<sup>st</sup> April to 31<sup>st</sup> March of each year):

25/26	26/27	27/28	28/29	29/30	5-year period delivery
<mark>10</mark>	<mark>32</mark>	<mark>74</mark>	<mark>74</mark>	<mark>74</mark>	<mark>264</mark>

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2025) – CATEGORY B SITES

#### Site Address:

Hill Farm, Copdock, Old London Road, IP8 3LE

#### **Developer/Site Promoter:**

Suffolk County Council / Lambert Smith Hampton

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2024) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, each Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. In the absence of this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

- 1. Site Planning Status (completed by the Council):
  - Allocation reference: N/A
  - Outline Planning Permission reference: DC/22/01605
  - Reserved Matters reference: N/A
  - Full Planning Permission reference: N/A
  - Brownfield Register reference: N/A
  - Permission in Principle reference: N/A
  - No Planning Status/Other (please explain): N/A
- 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

Outline planning permission granted. – The property is currently on the market with Lambert Smith Hampton for sale via private treaty.

(Please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic).

3. What progress is being made on site assessment work and the discharge of conditions required for an application submission and / or before development may lawfully commence?

#### **None**

(Please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged).

4. Please provide details of any house builder(s) secured to develop the site:

#### **None**

a. What is their track record of building and selling in the local market?

N/A

b. <u>If no house builder is yet in place, what progress has been made and when will one be contracted to build out the site?</u>

N/A

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from 1st April to 31st March of each year):</u>

25/26	26/27	27/28	28/29	29/30	5-year period delivery
N/A	N/A	N/A	N/A	N/A	N/A

30/31	31/32	32/33	33/34	34/35	35/36	36/37	37/38	38+
N/A	N/A							

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2030 if known as well. This information may also inform a future local plan trajectory.)

In support of the above trajectory, please also provide the following information:

a. When will construction on site likely begin (i.e. opening up works, not when the first house is delivered)?

**Unknown** 

b. When is the first house anticipated to be completed?

**Unknown** 

c. <u>If relevant, is there a phasing plan for the site?</u>

N/A

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

#### **Unknown**

e. What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected and/or is securing funding from a Registered Provider likely to amend the rate of delivery?

6 of the 19 dwellings in the planning permission have been allocated as affordable

f. <u>Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.</u>

#### **Unknown**

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

N/A

- 6. What are the key risks to achieving the trajectory identified above and how are you mitigating against these risks? In particular:
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you anticipate one to be agreed?</u>

Yes

b. <u>Is the development viable as approved / allocated, or do you anticipate amendments will need to be made?</u>

**Unknown** 

c. Is the site available for development now?

Yes

d. Are there site ownership, access or other legal constraints that could affect the commencement of development? (i.e. ransom strips, land assembly issues etc).

No

e. What (if any) infrastructure provision is necessary to support / enable the development to commence and is there funding in place to deliver it?

#### [INSERT]

(If the development is reliant on or has secured any grant funding for relevant supporting infrastructure, please provide details of this here).

f. What impact, if any, are you anticipating prevailing market delivery risks will have on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030? For example, the increasing cost of materials and labour, or inflationary pressures having a potential impact on market demand, or difficulties securing partnership from a registered provider?

[INSERT]

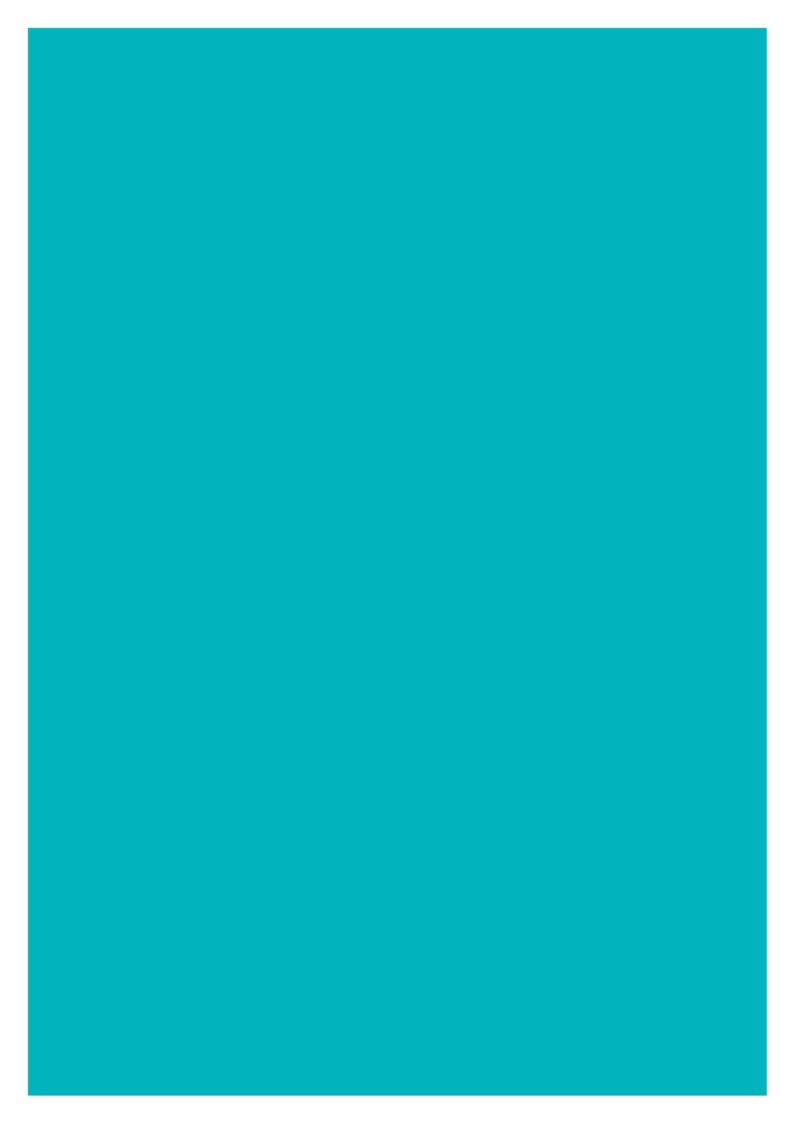

g. Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?

[INSERT]

7. <u>"Do you anticipate any delay in utility connections on your site? If so, would this impact on the number of dwellings to be completed from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030?"</u>

Major: Full Planning per B /12/00500/FUL & DC/23/04109	FUL	Shotley	Former HMS Ganges Site Shotley Gate Shotley Suffolk	18/12/2015	303		302		1 10	3:	2 46	46	6 46	Development commenced. Appears to have been a delay in site coming forward but homes under construction and for sale (by Wavensmere).  Developer proforma submitted but it is unclear on what basis the rates proposed are included; noting rates well above the median are projected. We have therefore applied median rates with the exception of years 1 and 2. The proposed rates in these years are below the median rate and we understand from discussions with the developer there will be a 'lag' in development ramping up (i.e. lower delivery in the initial years).		Yes	Yes - B05
														Note that in applying median rates, the number of homes in 5yr period is less than developer anticipates.  Note that a S73 was approved to increase the number of			
B /12/00500/FUL (C2) DC/23/04109	FUL	Shotley	Former HMS Ganges Site Shotley Gate Shotley Suffolk	18/12/2015	60	60							32	dwellings on site to total 303.  2 A 573 application was pending approval at the base date to amend the permission. This included expanding the 60-bed care home to a 75-bed care home. Permission has since been granted.  At the base date, only a 60-bed care home had permission and it was unclear whether the 573 would be approved. We therefore only account for this quantum of development. We have then applied a ratio of 1.9 to convert the care home beds (consistent with the 2023 HDT measurement technical note). Therefore, this element is expected to deliver the equivalent of 32 homes.  We have assumed delivery in 2029/30 (Year 5). The submitted Phasing Plan shows the C2 element will form part of Phase 2 (of 3). From discussions with the developer, they expect delivery to ramp upon once phases 2 and 3 come online from 2027/28 (Yea 3). Therefore, assuming delivery in Year 5 is conservative.		Yes	Yes - 805
DC/19/05419/FUL	FUL	Hadleigh	Land South Of Tower Mill Lane/East Of Frog Hall Lane Hadleigh Suffolk	16/11/2022	273	215	214	:	1 46	5 40	6 46	46	5 46	230 Relates to revised application for Phase 2 Hadleigh East Urban Extension Area. Median delivery rates applied.	Deliverable	Yes	No

Major: Reserved Matter																	
DC/20/01058/RES	RES	Sproughton	Land North And South Of Poplar Lane Sproughton Suffolk	10/07/2020	305					46		9		RM related to hybrid permission (ref. B/15/00993/FUL). This wa approved in 2020 and is under construction by Taylor Wimpey Homes. It forms part of the Wolsey Grange development.  Proforma return from the developer. Applied median rates in combination with Phase 1 (i.e. B /15/00993/FUL) forming the detailed element of the permission. There is a discrepancy in completion figures between the Council and the developer. We have applied the Council's figures (expecting fewer completions in the 5yr period than the developer).		Yes	Yes - B03
DC/19/00881/RES	RES	Brantham	Land South Of Brooklands Road Brantham Suffolk	21/06/2019	281	172	171	1	. 46	46	46 3	4		Site being delivered by Taylor Wimpey. Development commenced in 2020. Application for 573 (ref. DC/24/03035) approved to amend to amend housing mix. Other NMAs approved.  Proforma return from developer. The developer assumes the scheme will complete within the 5yr period. However, the developer only states 163 homes are left to complete. As per our methodology, we have used the Council's figures for the number of homes remaining. While developer assumes slightly lower than median rates, given they assume the development will complete by 2030, we have applied median figures (under which the site will also be delivered in full).	Deliverable	Yes	Yes - B01

Major - Outline permission																
B/15/01718	OUT	Sudbury	Land North And South Of Poplar Lane Sproughton Suffolk	29/03/2018	1,150	559	0		D.	0	0 3	3	38 Chilton Woods Mixed Use Development. 3 Phases under construction with RM permissions. Assumed developers will continue to bring forward phases. Clear Evidence of completions give existing progress. Proforma's submitted for other elements but applied S2F rates (following or from existing phases).		No	No
DC/21/02671/OUT	OUT	Sproughton	Land North Of The A1071, Ipswich (Wolsey Grange 2), Sproughton. Ipswich	12/09/2023	750	750	0			0	0 3	7	37 Outline planning permission for 750 homes. Granted permission in September 2023. Housebuilder on board - Taylor Wimpey (TW). This permission relates to the northern part of the wider Wolsey Grange development. The southern element (approved under a separate hybrid permission with the first phase in detail ref. B/15/00993 for 145 homes and an approve RMA for 305 homes - ref. DC/20/01058) is under construction.  Based on average lead-in times in Lichfields Start to Finish, a site of this size would normally be expected to start delivering homes now. Clearly there has been some delay but the site - as shown by the Design Code submission - is starting to progress.  The developer has submitted a proforma for this site. It states that the first RM for housing is being prepared and will be submitted in the 1st half of 2026. They also note high upfront costs associated with \$278 works. The proforma assumes 37 completions in 2029/30. Based on the proforma, we conclude there is a realistic prospect of completions given there is firm progress towards the submission of RMs from a developer with a strong track record that is already delivering on an adjacent site. However, we have only assumed 37 homes - as per the proform will be delivered.		Yes	Yes - B04

# Category B: Not Deliverable

PP Reference	Planning Permission	Parish	Site Address	Date of Approval	Dwellings Approved	Net Dwellings	Council's Assessment of Deliverability	Conclusion	Proforma Return?
Major - Outline permission									
DC/20/05361/OUT	OUT	Acton	Land South East Of Barrow Hill Acton CO10 0AS	01/06/2021	100		Outline planning permission for 100 homes. Granted permission in June 2021. Permission has lapsed.	Not Deliverable	No
DC/22/01605/OUT	OUT	Copdock & Washbrook	Hill Farm Barns, Hill Farm Old London Road Copdock And Washbrook IP8 3LE	08/03/2024	19		Outline planning permission granted for 19 homes. Granted permission in March 2024 To date, no RMAs for housing nor any applications to discharge relevant conditions.  Site is not considered deliverable given lack of clear evidence.  Proforma return confirms this view. It notes the site is for sale and it is unknown whether it will deliver in five-year period.	1	Yes - B06
